

About Coronavirus (COVID-19)

WHAT IS IT?

COVID-19 is an illness caused by a coronavirus.

Human coronaviruses are common and are typically associated with mild illnesses, similar to the common cold.

HOW IT IS SPREAD

Coronaviruses are most commonly SPREAD from an infected person through:

- respiratory droplets when you cough or sneeze
- close personal contact, such as touching or shaking hands
- touching something with the virus on it, then touching your eyes, nose or mouth before washing your hands

These viruses are not known to spread through ventilation systems or through water.

STAY INFORMED

- Learn about the symptoms of COVID-19, how it spreads and how to prevent illness.
- Get your information from reliable sources such as the Public Health Agency of Canada, and provincial, territorial and municipal public health authorities.
- If the news media is making you feel anxious, take a break from it.

About Coronavirus (COVID-19)

SYMPTOMS

FEVER

COUGH

DIFFICULTY
BREATHING

Symptoms may be very mild or more serious. They may take up to 14 days to appear after exposure to the virus.

IF YOU HAVE SYMPTOMS

If you have SYMPTOMS of COVID-19 — fever, cough, or difficulty breathing:

Stay home to avoid spreading it to others

- If you live with others, stay in a separate room or keep a 2-metre distance

Call ahead before you visit a health care professional or call your local public health authority

- tell them your symptoms and follow their instructions

811

If you need immediate medical attention, call 811 and tell them your symptoms

About Coronavirus (COVID-19)

PREVENTION

Wash your hands often with soap and water for at least 20 seconds

Avoid touching your eyes, nose or mouth, especially with unwashed hands

Avoid close contact with people who are sick

When coughing or sneezing:

- cover your mouth and nose with your arm or tissues to reduce the spread of germs
- immediately dispose of any tissues you have used into the garbage as soon as possible and wash your hands afterwards

Clean and disinfect frequently touched objects and surfaces, such as toys, electronic devices and doorknobs

Stay home if you are sick to avoid spreading illness to others

About Coronavirus (COVID-19)

PREPARE & PLAN

There are simple, practical things you can do to prepare in case you or someone in your household becomes ill or if COVID-19 becomes common in your community.

MAKE A PLAN THAT INCLUDES:

- Essential supplies (a few weeks' worth) on hand so you will not need to leave your home if you become ill.
 - Avoid panic buying. Add a few extra items to your cart every time you shop. This places less of a burden on suppliers, and can help ease financial burden on you as well.
 - Renew and refill your prescription medications.
- Alternative arrangements in case you become ill or if you need to care for a sick family member. For example:
 - Have backup childcare in case you or your usual care provider become ill.
 - If you care for dependents, have a backup caregiver in place.
 - Talk to your employer about working from home if possible.
- Reducing your exposure to crowded places if COVID-19 becomes common in your community. For example:
 - Shop and use public transit during off-peak hours
 - Exercise outdoors instead of in an indoor fitness club

About Coronavirus (COVID-19)

SELF-ISOLATION

Cover your cough or sneeze with a tissue, then throw the tissue in the trash

Wash your hands often with soap and water for at least 20 seconds. If soap and water are not available, use an alcohol-based hand sanitizer

Avoid sharing household items like dishes, drinking glasses, eating utensils

Clean and disinfect frequently touched objects and surfaces

If in a room with others, avoid contact, keep distance of at least 2 metres, wear a mask

About Coronavirus (COVID-19)

WHAT WE ARE DOING TO BE PREPARED

United Way of Central & Northern Vancouver Island (UWCNVI) is taking internal and external steps to support the communities we serve. Internally, we have closed our physical location and are working from home. We can still take calls and emails and are conducting necessary meetings remotely via tele/videoconference. **Don't hesitate to reach out!**

We are also working with other United Ways in BC and United Way Canada to ensure we are informed of actions being taken across our regions and share ideas on how to support the people we serve.

Our partnership with 211 services is integral at a time such as this. We know that bc211 is regularly being updated with relevant, reliable links to provide essential information on the COVID-19 situation. Bc211.ca is an important social service resource and referral platform, available all across BC 24/7, that works to keep emergent issues at the forefront and provide free, public information at all times. **Please visit www.bc211.ca for help whenever you need it.**

Externally, UWCNVI is providing resources to agencies, businesses, corporates and other community stakeholders (like bc211.ca) to help inform and support those who we live and work with. We are working to connect with agencies around our region as soon as possible to see if there are any emerging needs that we can help with. As community connectors, we want to listen to the needs of those around us and do our best to connect resources where they are needed.

Here for community, with community.

LEVEL ORANGE NOTICE

CORONAVIRUS (COVID-19)

As of today **if you have returned from travel outside Canada** you are required to **self-quarantine for 14-days**. If this applies to you, please return home and contact your Leadership.

If you feel ill, do not enter the site, return home and contact your Leadership to discuss next steps.

If you enter the site and begin to feel ill, inform your Leadership and they will discuss next steps with you.

Working together we will keep COVID-19 offsite and protect our plant, our families and our community!
